AVIATION CHEMICAL CONSUMABLES SPECIALIST

Consumables Sourcing From Our UAE Hub

Purvi Aero International FZC is a UAE-based aviation consumables trader specialising in turbine oils, greases, sealants, paints, and cleaning solvents for commercial, regional, and MRO operators.

We operate as a technical procurement desk — every chemical list is vetted against OEM maintenance-manual specifications before dispatch, preventing parts mismatch and ensuring regulatory compliance. Our Umm Al Quwain Free Zone warehouse enables fast cross-border transit across the Middle East, Africa, and South Asia.

WHAT WE DO

Source, vet, and deliver shelf-life-sensitive aviation chemicals and greases — with full batch traceability, SDS documentation, and cure-date management on every shipment.

CONSUMABLES FIRST

Turbine oils, sealants, paints, solvents, and greases — our core business.

SPEC-VETTING DESK

Every order matched to OEM maintenance-manual specifications before dispatch.

UAE LOGISTICS HUB

UAQ Free Zone warehouse — fast transit across the Middle East, Africa, and CIS.

SUPPLY PARTNERSHIPS

Verified Product Lines In Stock

Every product is sourced directly from named OEM partners or approved master distributors to ensure full batch tracing.

AeroShell (Shell Aviation) LUBRICANTS/GREASES	Mobil Jet Oil / ExxonMobil LUBRICANTS/GREASES	Castrol Aviation LUBRICANTS/GREASES	Pidilite Industries ADHESIVES/SEALANTS
Loctite (Henkel) ADHESIVES/SEALANTS	3M Aerospace ADHESIVES/SEALANTS	Zip-Chem CLEANING/SOLVENTS	Brulin CLEANING/SOLVENTS
Chemtronics CLEANING/SOLVENTS	PPG Aerospace PAINTS/COATINGS	Alkzo Nobel Aerospace Coatings PAINTS/COATINGS	Sherwin-Williams Aerospace PAINTS/COATINGS

CONFIRMED SUPPLY

Lubricants & Greases

Aeroshell and Shell Aviation product lines — turbine oils, hydraulic fluids, greases, and MIL-SPEC lubricants supplied with full batch traceability and shelf-life monitoring for every unit.

100% BATCH TRACED • SDS INCLUDED

PRODUCT MATRIX & SPECIFICATIONS

- ⦿ Aeroshell Turbine Oils (500 Series)
- ⦿ Aeroshell Greases (multi-purpose, high-temp)
- ⦿ Shell Aviation Hydraulic Fluids
- ⦿ MIL-PRF qualified lubricant grades
- ⦿ Cure-date and expiry tracking per batch
- ⦿ SDS and technical data sheets included

TECHNICAL SOURCING RANGE

Adhesives, Sealants & Epoxies

Structural adhesives, airframe sealants, and epoxy systems for MRO applications. Sourced to Boeing, Airbus, and MIL-SPEC quality metrics.

SUPPLIER RANGE NOTE

Pidilite Industries range (Araldite, M-Seal, Fevicol Industrial, or similar) — specific sub-brands to be confirmed.

PRODUCT MATRIX & SPECIFICATIONS

- ⦿ Structural adhesives for airframe bonding
- ⦿ Epoxy systems for composite repair
- ⦿ Batch-level traceability and cure-date monitoring
- ⦿ Fuel-tank and pressure-cabin sealants
- ⦿ Sealant kits pre-configured for maintenance events
- ⦿ Cold-chain and temperature-controlled storage

HAZMAT-COMPLIANT SUPPLY

Cleaning Solvents & Degreasers

Aviation-approved cleaning chemicals and degreasers for component overhaul, engine wash, and line maintenance. Sourced per-order with complete SDS metrics.

BRAND ASSESSMENT

Zip-Chem, Brulin, Turco, and Ardrex brand formulations under active technical review.

PRODUCT MATRIX & SPECIFICATIONS

- Aviation-approved component degreasers
- Engine wash and compressor cleaning solutions
- Interior cleaning and disinfection chemicals
- Hazmat-compliant packaging and labelling
- SDS documentation for every product line
- Bulk supply with per-unit batch traceability

Aerospace Paints & Coatings

Vetted Brands

Topcoats, primers, and specialty coatings for airframe painting, touch-ups, and structural protection. Sourced from major aerospace coatings OEMs (PPG Aerospace, Desothane, AkzoNobel, Sherwin-Williams).

- Polyurethane topcoats and basecoats
- Epoxy and chromate primers
- Corrosion-inhibiting coatings
- Touch-up paint kits for line maintenance

General Aviation Chemicals

Core Supply

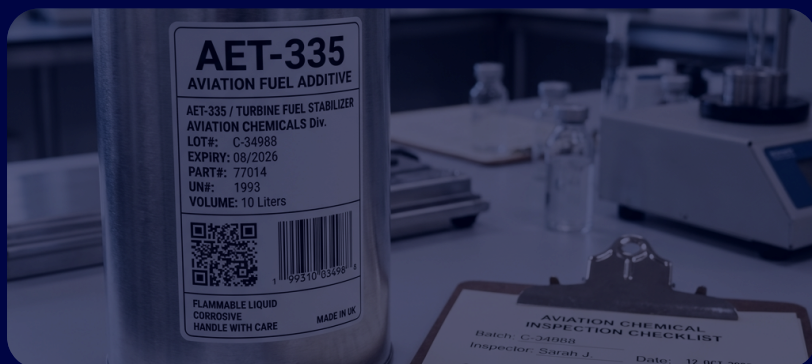

Primers, corrosion inhibitors, sealant kits, and specialty chemicals that support scheduled maintenance checks (C & D checks) as well as unexpected AOG repair events.

- Corrosion Inhibitor Compounds (CICs)
- Chromate and non-chromate systems
- Pre-kitted sealant and adhesive sets
- Preservation and storage protection fluids
- De-icing and anti-icing fluid supply
- Custom kitting for C-check and D-check events

TECHNICAL QUALITY MANAGEMENT

Chemical Logistics & Spec Vetting

Chemical logistics require compliance steps that general parts brokers omit. We structure dispatch around the preservation requirements of limited-shelf-life materials.

VERIFICATION AUDIT PROTOCOL

- 01 Standard Airworthiness Docs (FAA 8130-3 / EASA Form 1 when applicable)
- 02 OEM & Authorized Supplier Vetting Standards
- 03 Batch Traceability & Cure-Date Management
- 04 Hazmat Packaging & Airfreight Logistics Vetting
- 05 Spec-Lock Alignment Reviews

**SECONDARY CAPABILITY**

Aircraft Spares & Rotables

Alongside our primary chemical supply, we coordinate spares procurement, rotatable exchanges, and expendable hardware packages for commercial, regional, and MRO fleets.

ROTABLES

Engine, landing gear, and component exchanges.

EXPENDABLES

Fasteners, gaskets, O-rings, and standard hardware packs.

**MRO CONSUMABLES SUPPORT**

Transport Aircraft MRO Support

We support MRO facilities that service military transport aircraft with consumables supply — paints, coatings, sealants, and cleaning chemicals required for scheduled and unscheduled maintenance events.

- Consumables supply for transport aircraft heavy maintenance checks.
- Hazmat-compliant packaging and logistics for chemical shipments.
- Full batch traceability and SDS documentation on all items supplied.
